Don't Get Lost in Today's Challenging Technology Environment.
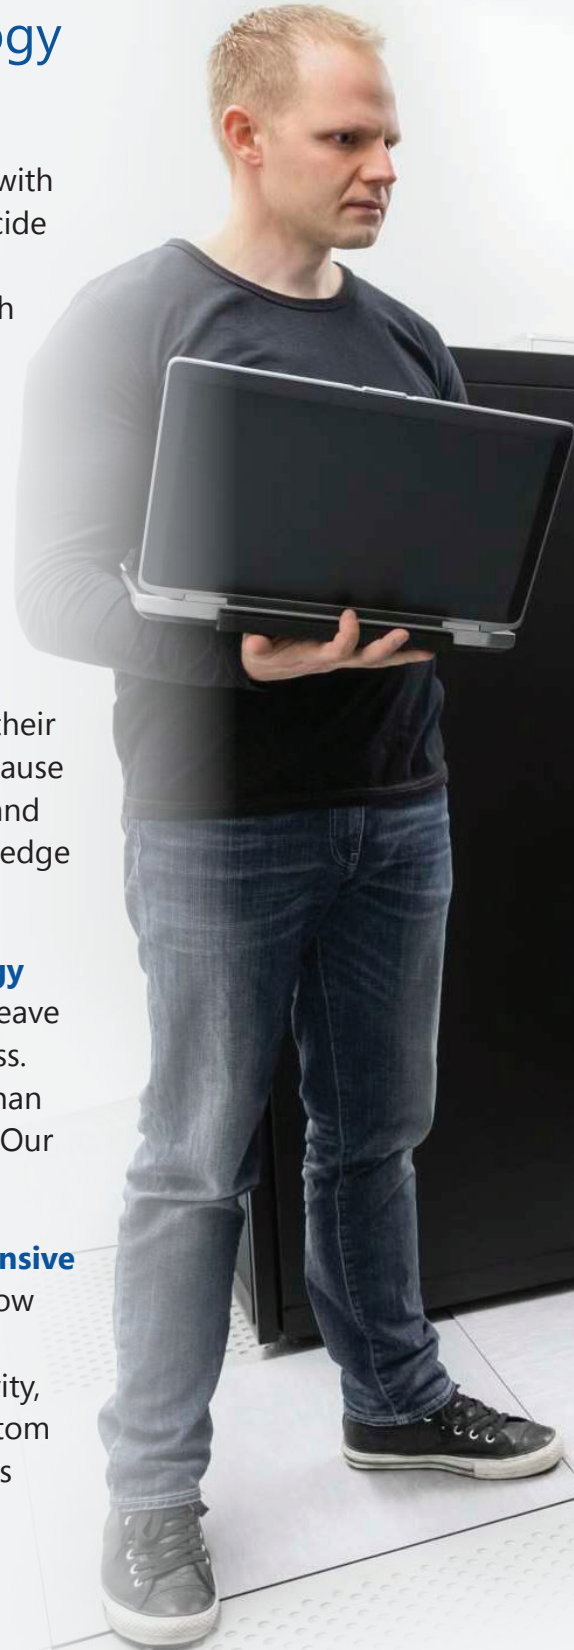

intelice SOLUTIONS

Intelice Solutions Provides the IT Managed Services DC Metro Area Businesses Require in Today's Challenging Technology Environment.

Businesses owners and managers are struggling with an abundance of new technologies, trying to decide which ones can bolster their business. It's an overwhelming challenge. There's just not enough time to evaluate all the software, firewalls, anti-virus, hardware, etc. And even when you think you've found the right solutions, and considered every possible bottleneck and glitch, another IT impediment comes your way.

Smart business owners in the DC Area let an IT Managed Service Provider handle this for them. And those who want to save money, and increase the reliability, efficiency and security of their technology, rely on Intelice Solutions. Why? Because we implement a set of best practices, processes and tools, combined with up-to-date technical knowledge and skills that deliver results.

You can count us 24/7 to keep your technology running securely and at peak performance. Leave your IT worries behind and focus on your business. We're not just a break/fix IT shop. We do more than simply handle your emergent technology issues. Our solutions will actually add value to your business.

Intelice service and support is often less expensive than hiring your own internal I.T. staff. We know how to incorporate cost-effective solutions into your current IT infrastructure to ensure productivity, operational efficiencies and to improve your bottom line. Our team of experienced IT professionals has access to a wide variety of solutions to help you compete and succeed in today's ever-evolving technology landscape.

intelice
SOLUTIONS

With Intelice you'll have a dedicated, certified team of technology experts, to help you plan for, and implement an IT infrastructure that works for you today and tomorrow. We'll be your:

- IT Business Advisor
- IT Financial Advisor
- IT Productivity Advisor
- IT Security Advisor
- IT Hardware Advisor
- IT Software Advisor
- IT Partner

We'll focus on your unique IT needs and tailor solutions to not only meet your expectations, but exceed them. When you ask us for new hardware or software we'll first take a look at your business to ensure you won't waste money on IT that you don't need. We provide an additional layer of business technology services to ensure you're using the right solutions for your specific needs.

We'll build foundation that increases the value of your IT infrastructure, streamlines operations, remove complexities, and enhances company communications. Our fixed-cost IT services provide cost-effective solutions to meet both your budget and your goals. Our IT Managed Services include:

- Custom network installations
- Move-related services
- Virtualization
- Remote access solutions
- Systems monitoring
- Disaster recovery solutions
- Power management solutions
- Mobile messaging solutions
- Security management services
- Data backup
- And More
